

KINGTON LANGLEY CLIMATE ACTION: SURVEY

Scientists and governments around the world agree that climate change is real, and that we have to move quickly to become “carbon neutral”. We would welcome your feedback on where the Parish Council can help.

Please complete the questions overleaf, and then write in the box below anything else we (the villagers, facilitated by the Parish Council) should be doing.

Alternatively please complete the survey online; follow the link from kingtonlangley.org. The survey is anonymous, and we would like one survey per household. Once completed, please post or put in the Parish Clerk’s mailbox: Willow Cottage, Church Lane SN15 5NR by 29 April.

If you are keen to get involved, or feel you have some experience or skills to help with any of this, please get in touch: getinvolved@kingtonlangley.org. Results will be published on kingtonlangley.org and shown at the Annual Parish meeting, Tuesday 17 May 7:30pm at the Union Chapel, where we will be on hand to discuss and develop these ideas.

Please tick the most appropriate box for each question:

	Yes	Maybe	No
The climate crisis is real and urgent			
We all have a part to play in combatting the climate crisis			
The parish council should help facilitate our response to the climate crisis			
Our household would use (at least once a month) a pooled electric car (e.g. www.co-cars.co.uk) if based locally			
It would help us if there was electric car charging infrastructure in the village			
My household would be interested in schemes to offset our carbon (CO ₂) emissions			
We would be interested in seeing thermal imaging pictures of our house to understand heat losses			
Our household would (in principle) support the idea of reduced grass-cutting of commons and verges (subject to more detail)			
Our household would (in principle) support tree planting on wide verges and on the edge of some of the commons (subject to more detail)
